## **OCCUPATIONAL HEALTH AND SAFETY POLICY**

**COLOMBIA ASESORIAS S.A.S.** bases its management commitment and the company in general before its workers, contractors and subcontractors in creating a constant culture based on PROMOTE, PROTECT AND PREVENT the physical and mental integrity of each one of them, improving the working conditions that diminish the generation of incidents, accidents and / or occupational diseases, allocating human, physical and financial resources for their purpose.

In this way, it identifies the hazards, evaluates and assesses the risks, in order to establish the necessary controls, minimizing the risks, in a constant continuous improvement, including the protection of the environment and compliance with current legal regulations regarding occupational risks.

We work with the participation of the Safety and Health at Work Monitor in the development of activities in front of the Health and Safety at Work Management System, guaranteeing safer processes and promoting self-care.

This policy is signed, published and communicated to the entire organization.
